

Protect Vulnerable Populations with Severe Mental Illnesses

Support safeguard legislation that exempts those with extreme mental health conditions from capital punishment.

- 1** In Arizona, over 1 million adults have a mental health condition.
- 2** Landmark legislation in Kentucky and Ohio has been passed that provides these protections and passed with bipartisan support.
- 3** There are 13,553 people who are homeless, 59.2% are unsheltered in Arizona, and many suffering from extreme mental illness and addiction without mental health resources.

Scan the QR code to sign the petition for SMI protection legislation and get more information on why this policy is important and needed in Arizona.
